

Diamond Sport Grass is a surface of synthetic fibers made to look like natural grass. It is most often used in arenas for sports that were originally or are normally played on grass. Diamond Sport Grass stands up to heavy use as in sports, such as Futsal.

Diamond Sport Grass is accepted by many people. Unlike the futsal synthetic grass of the past, players can now enjoy the higher performance of futsal synthetic grass while remaining safe. Also, Diamond Sport Grass non-abrasive so players are protected from rug burn.

### Packaging

Roll Width	4m
Roll Length	As Required

### Characteristics

Composition	100% Thiolon® MS TT, Monofilament, UV Resistant
Structure	Monofilament
Yarn Count	11000 Dtex
Tape Width	1.4mm
Tape Thickness	220µm
Pile Height	30mm-70mm
Density per sqm	D9450-12600

### Backing Characteristics

Backing Cloth	Green environmental PET Reinforced fabric Backing + PP UV Resistant Backing + Woven Backing
Type of Coating	SBR (DOW)

### Infill

Bottom Layer	Washed and dried silica sand (90% round)
Top Layer	Recycled rubber granules

### Lifetime

5 years (Solar activity in 100-160W/m2)

Supplied & Installation by:

Komplek Angkasa Pura Blok R6 Kemayoran, Jakarta 10630, Indonesia
